

VAPOR BARRIER | REMODEL APPLICATION

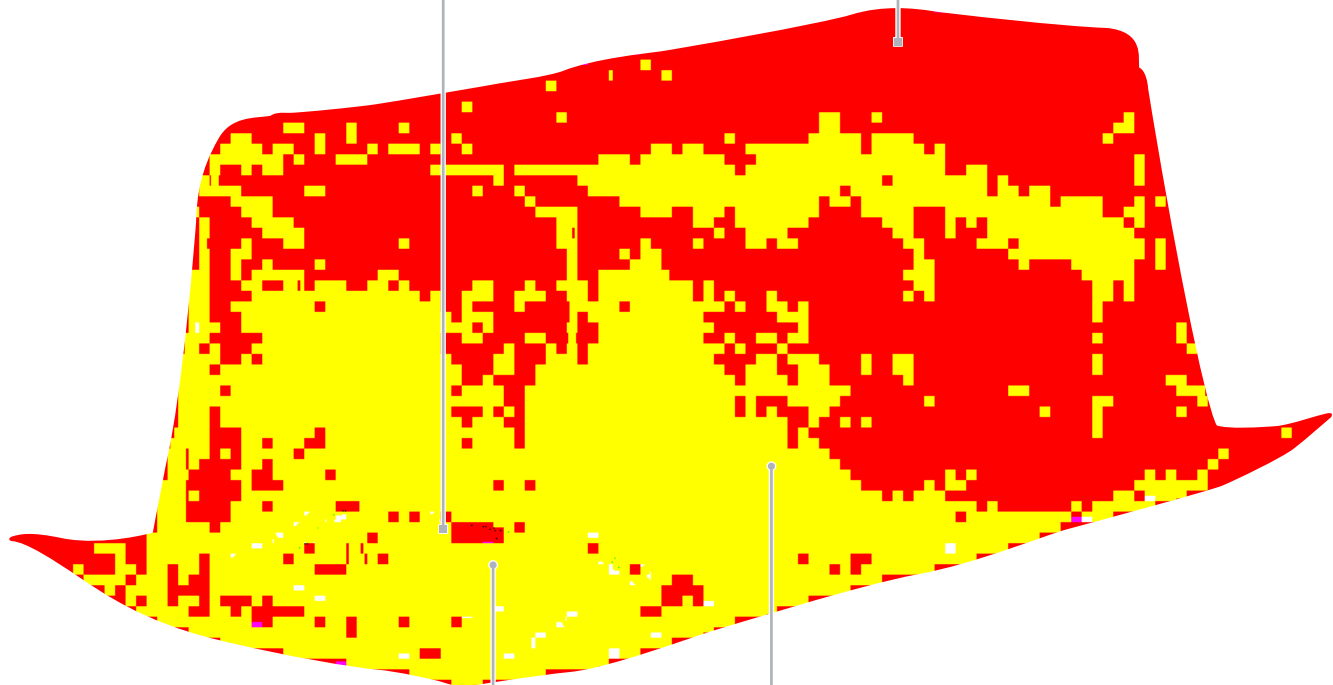

WELL SUITED FOR A REMODEL APPLICATION WHERE FIXTURES REQUIRE A VAPOR BARRIER

ADHESIVE MOUNTING RING

Featuring an adhesive mounting ring, once affixed prevents air leakage into the attic space from the living area.

INSTALLATION

Can be installed after holes are cut into new or existing ceiling drywall.

SIZE

Available in either a 4" or 6" hole cut out which allows all NDR Electric remodel housings and Razor Series products to be inserted.

BUILDING CODE STANDARD

This product is required to be installed in many municipalities to meet national building code standard. Verify local building codes prior to installation.
