

250 SERIES PINNACLE

LED SPECIFICATION GRADE 24V TAPE LIGHT

NDR Pinnacle **250 Series** LED Tape Light offers industry specification grade technology and is engineered for the extra-long run applications. This product features temperature sensing and constant current IC chips that ensure an even consistent light output in long run applications.

As an added plus, installation costs are reduced by requiring fewer drivers and separate runs. Ideal applications: ambient and close level task lighting. Well suited for longer applications such as hallways, toe kicks, coves, display cases and more.

FEATURES

- Constant current IC chips
 - For reduced drop in voltage & light output
- 4oz Copper per sq. ft. – Specification Grade
 - Thicker layer offers less electrical resistance and voltage drops
- 3-Step MacAdam LED binning
- Full range dimmability
- Cuttable every 2"
- 3M™ mounting tape
- Maximum run – 32.8ft (10m)
- IP20 rated – Dry location

3M™ ADHESIVE BACK

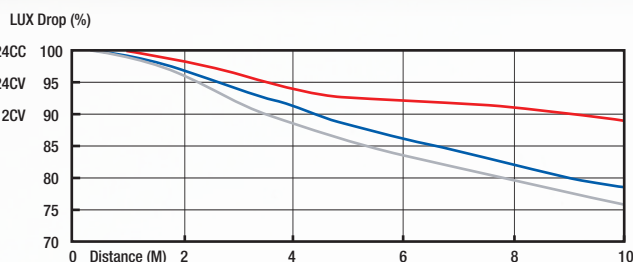

Easy installation on non-porous surfaces

FIELD CUTTABLE

Can be cut every 2"

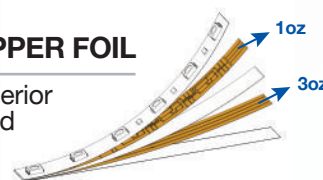

CONSTANT CURRENT IC

Ensures every LED receives the same specific amperage level, providing consistent light output and color.

DOUBLE LAYER COPPER FOIL

4oz pure copper for superior thermal management and lower voltage drop
