

# PINNACLE

Diffuser kits for Pinnacle Series Tape Light

**TL-CKIT1**

SPECIFICATIONS SHEET

## SPECIFICATIONS

### Housing

Aluminum extruded channels with silver or black anodized finish for a smooth finish that will prevent rusting/corrosion and offer a good heat dissipation to keep the LED tape light cool.

### Optics

Polycarbonate lens with frosted finish to provide an evenly diffused illumination throughout the installation.

### Kit Contents

The diffuser kit is packed to pair perfect with 1x 16.4FT (5m) reel of NDR Pinnacle Series 24V tape light items.

Each diffuser kit includes (5) packs of:

1x aluminum channel cut to 39.37" (1m)

1x polycarbonate lens cut to 39.37" (1m)

2x plastic end caps (1 end cap sealed and 1 end cap with hole)

3x spring steel mounting clips + screws for mounting

Total contents of each diffuser kit:

16.4ft (5m) of aluminum channel

16.4ft (5m) of polycarbonate lens

10 plastic end caps (5x sealed + 5x with wire hole)

15 spring steel mounting clips + screws for mounting

### Installation

Suited to fit all NDR Pinnacle Series 24V tape light models - ideal for any surface or recessed mount installations. Spring steel mounting clips for easy installation and suited for any dry or damp location applications.
